## Softronic signs an agreement with Mitsubishi Logisnext Europe to deliver an ERP Business Core Template based on Microsoft Business Central

**Softronic has signed an agreement with Mitsubishi Logisnext Europe (MLE) to design and deliver an ERP Business Core Template based on Microsoft Business Central.**

The initiative runs throughout 2026 and represents an important milestone in Mitsubishi Logisnext Europe's ERP transformation program. The Business Core Template will create a standardized ERP solution based on Microsoft Business Central throughout Mitsubishi Logisnext Europe's operations.

The template will define common processes, data structures, governance principles and integration standards, enabling efficient rollout to local business units in the coming years.

Mitsubishi Logisnext Europe is part of the Logisnext group, a leading global provider of innovative logistics and material handling solutions. The company offers an extensive portfolio of materials, handling equipment, services, and logistics solutions, supporting customers throughout the complete lifetime of its products.

- We are proud to deepen our partnership with Mitsubishi Logisnext Europe by developing their future business system. By establishing a standardized and scalable Template in Microsoft Business Central, we enable consistent processes, stronger governance and faster distribution in several countries, says Mattias Flock, CEO at Softronic.

Iñigo Gomariz, Chief Financial Officer at Mitsubishi Logisnext Europe says:

- Business Core Template is an important step in our business system strategy. We build a structured and future-proof foundation that ensures alignment across our organization while maintaining flexibility for local business needs. Softronic's experience with Business Central and structured delivery approach gives us confidence in achieving these goals.

Softronic is a certified Microsoft Solution Partner and has worked closely with Microsoft since the early 1990s.
